Executive Summary

Full-Stack Web Developer with hands-on experience in designing and developing responsive, scalable web applications using modern frontend and backend technologies. Proficient in JavaScript, React.js, Node.js, Java, Spring Boot, Python, and SQL, with experience building RESTful APIs, integrating databases, and implementing authentication. Skilled in working with MySQL, MongoDB, and PostgreSQL, with a strong understanding of software development principles, version control, and agile methodologies. Passionate about building user-centric, maintainable, and high-performance web applications.

Technical Skills

- **Languages:** Java, Python, JavaScript, C#, HTML, CSS.
- **Frontend:** React.js, Tailwind CSS, Bootstrap
- **Backend:** Spring Boot, Node.js, Express.js, Flask, RESTful APIs
- **Database:** MongoDB, MySQL, PostgreSQL
- **Testing:** Jest, Vitest, Unit Testing, Integration Testing
- **Cloud & DevOps:** Docker, AWS, Git, GitHub, CI/CD basics
- **Monitoring & Tools:** Prometheus, Grafana, Kibana (familiar), VS Code, Figma, Three.js
- **Soft Skills:** Leadership, Team Collaboration, Communication, Time Management, Resilience

Projects

MCQ Practice Website (Self-Developed)

React.js, Node.js, MongoDB

- Developed a full-stack MCQ Practice Website that allows users to take topic-wise quizzes, receive instant feedback, and track their scores through a responsive and user-friendly interface.
- Improved application performance by implementing reusable React components, optimizing API communication, and ensuring a seamless experience across desktop and mobile devices.

Personal Portfolio (Self-Developed)

React.js, Tailwind CSS, Vitest

- Design and develop a portfolio to showcase my skills and experience using a modern frontend framework.
- Optimized performance and UI responsiveness.

[Code](#) [Demo](#)

Clothing Business Web Application (Self-Developed)

HTML, CSS, JavaScript

- Developed a full-stack e-commerce platform for a clothing business using modern web technologies.
- Improved frontend efficiency by optimizing layouts, components, and responsive design.

[Code](#) [Demo](#)

Server Management AI (Team-Developed)

Prometheus, Grafana, React.js, Flask

- Built a backend-driven system using Flask and REST APIs to monitor server resources in real time.
- Integrated Prometheus for metrics collection and Grafana for visualization dashboards — directly aligned with production observability stacks.
- Applied ML-based anomaly detection to predict workload spikes and recommend automated scaling actions.
- Containerized the application using Docker for consistent deployment across environments.

[Code](#)

Internship Experience

Java Full Stack Developer Intern | Ally Tech | May 2026 – June 2026

- To gain hands-on experience in data science by applying theoretical concepts to real-world datasets, developing practical skills in data analysis, visualization, SQL, and machine learning, while understanding industry-standard workflows and best practices.
- Performed data analysis and visualization on structured datasets using Pandas, NumPy, Matplotlib, and Tableau.
- Wrote SQL queries for data extraction and analysis using relational databases.

Project:

Web Application for Attendance Management

- **Tools:** React.js, Spring Boot, MySQL
- Developed a **secure and efficient Attendance Management System** with user authentication, attendance tracking, and real-time attendance record management.
- Built a responsive frontend using **React**, developed RESTful APIs with **Spring Boot**, and integrated a **MySQL** database for reliable data storage and retrieval.

Web Development Intern | FrontierWox Tech Pvt Ltd | Aug 2025 – Feb 2026

- Developed and delivered 3 production-grade web applications in a team environment following agile workflows.
- Built RESTful APIs using Node.js/Express.js and Flask; integrated with MongoDB and MySQL databases.
- Implemented unit and integration tests using Jest ensuring code quality and regression safety.
- Collaborated using Git/GitHub for version control, code reviews, and feature branch management.

Projects:

Portfolio for Faculty

- **Tools:** React.js, CSS, Jest
- To develop a portfolio website that highlights skills and experience using a professional and maintainable design structure.

[Code](#) [Demo](#)

Website for Devotional Organization

- **Tools:** HTML, CSS, JavaScript
- Built a professional website for the organization that visually enhance the products and services of the organization using responsive designs

[Code](#) [Demo](#)

Web Application for Portfolio Builder

- **Tools:** React.js, Tailwind CSS, Node.js, MongoDB
- To design and develop a portfolio builder application that allows users to create and customize dynamic portfolios using reusable components.

Data Science Intern | Fantasy Solution | May 2024 – June 2024

- To gain hands-on experience in data science by applying theoretical concepts to real-world datasets, developing practical skills in data analysis, visualization, SQL, and machine learning, while understanding industry-standard workflows and best practices.
- Performed data analysis and visualization on structured datasets using Pandas, NumPy, Matplotlib, and Tableau.
- Wrote SQL queries for data extraction and analysis using relational databases.

Project:

Analysis and Visualization of Performance Data

- **Tools:** NumPy, Pandas, Matplotlib, Tableau, SQL
- To explore and visualize structured datasets to identify patterns, trends, and key insights that support data-driven decision-making.

Education

- Master of Computer Applications (**MCA**), SRM Institute of Science and Technology (2025 -2027) **CGPA: 9.21**
- Bachelor of Computer Applications (**BCA**), St. Joseph's College (2022 – 2025) **CGPA: 7.67**

Certifications & Languages

- Completed NPTEL certification course on **Programming with Generative AI, Data Structures and Algorithms using python and Machine learning for Engineering and Science application.**
- Certified in **English Typewriting** and Dakshin Bharat Hindi Prachar Sabha Exam
- Solved **75+** coding problems on **HackerRank** and **LeetCode** (DSA, Problem Solving)
- **Languages:** Tamil (Native), English (Fluent), Hindi (Intermediate)
